Grade: Very Good with Honours

Career Objective

Consultant in integrated management systems for Quality, Environment, Occupational Health & Safety, Social Responsibility and Energy Management (ISO 9001, ISO 14001, ISO 45001, ISO 50001, ISO 26000, ISO 31000). Seeking to deliver practical, accredited and sustainable management system solutions for companies in the petrochemical, oil & gas and education sectors to achieve compliance, continuous improvement and reduction of environmental impact (including carbon footprint).

Professional Summary

Doctorate-qualified Biochemist with extensive technical, managerial and practical experience in the petrochemical and oil & gas sector. Began career as a laboratory chemist and moved to Quality Assurance in 1997, ultimately serving as General Manager – Quality Assurance at the Egyptian Petrochemicals Company until retirement in 2022. Strong background in establishing and implementing ISO-based management systems, conducting internal and external audits, training and capacity building, and providing consultancy to multiple organizations in quality, environment, energy, social responsibility and risk management.

Work Experience

General Manager – Quality Assurance (previously Laboratory Chemist)

Egyptian Petrochemicals Company | 1987 – 2022

- Performed analytical laboratory testing and ensured quality and reliability of test results.
- Transferred to Quality Assurance in 1997 and led the function until retirement in 2022.
- Developed and implemented integrated management systems aligned with ISO 9001, ISO 14001, ISO 45001, ISO 50001, ISO 26000 and ISO 31000.
- Implemented laboratory accreditation processes per ISO/IEC 17025 and led accreditation efforts.
- Planned and coordinated internal and external audit programs; managed corrective and preventive actions.
- Led training programs and capacity building initiatives across the petroleum sector.

Work Experience
