| | EXECUTIVE SUMMARY | |
|--|--------------------------|--|

A certified Quality, Health, Safety, and Environment (QHSE) Manager with over 14 years of experience in the industrial and laboratory sectors. Specialized in managing and implementing QHSE systems (ISO 9001, 13485, 22000, 14001, 45001). Combines a solid technical background in microbiology and biochemistry with proven leadership and project management skills to ensure compliance with international standards and drive continuous improvement.

| | PROFESSIONAL EXPERIENCE | |
|--|--------------------------------|--|

Quality, Health, Safety & Environment (QHSE) Manager | Egypt Africa Company
Approximately 2 years - Present

- Responsible for managing and developing the company's QHSE systems.
- Oversee internal and external audits to ensure compliance with international standards.
- Lead dedicated teams to achieve organizational goals and improve the work environment.

Consultant & Trainer | Quality Institution for Engineering & Management Consultancy
February 2016 – Present

- Provided consultancy services for the implementation of ISO management systems (9001, 13485, 22000, 14001, 45001).
- Trained corporate teams on applying global quality standards, leading to successful ISO certification.
- Managed successful consultancy projects for over 8 organizations in various sectors (medical labs, pharmaceutical companies, hospitals, and industrial firms).

Microbiological Specialist | Nile Company for Pharmaceuticals and Chemical Industries
April 2008 - February 2022

- Performed practical applications of microbiology in pharmaceutical testing to identify potential hazards.
- Conducted product testing to ensure quality and specification compliance.
- Applied analytical techniques including water analysis, sterility testing, and LAL assays.
- Performed environmental monitoring of clean rooms and maintained historical microbial data.
- Collaborated with management to organize workload and ensure timely release of test results.

Medical Laboratory Specialist | Eltatbeqeen Hospital & Yousry Eldakhakhny
Laboratory **2007 - 2010**

- Performed a wide range of laboratory tests, including blood analysis, liver function tests, and bacterial culture tests.
- Applied practical knowledge of microbiology, virology, biochemistry, and hematology.
- Adhered to all Standard Operating Procedures (SOPs) and ensured accuracy of results.

|--|---------------|--|
| | SKILLS | |
|--|---------------|--|

Technical Skills

- Certified Occupational Health and Safety Specialist.
- ISO Management Systems (9001, 13485, 22000, 14001, 45001).
- Good Manufacturing Practices (GMP) and Hazard Analysis Critical Control Point (HACCP).
- Comprehensive microbiological and biochemical testing.
- Statistical data analysis and report preparation.

Computer Skills

- Operating Systems: Windows XP, Windows 7.
- Microsoft Office Suite (Word, Excel, Access, PowerPoint, Visio).

Personal Skills

- Strong leadership and team management.
- Effective planning and time management.
- Problem-solving and scientific research.
- Logical thinking and high attention to detail.
- Excellent verbal and written communication.

Languages

- **Arabic:** Excellent (Native).
- **English:** Very Good (Reading, Writing, and Conversation).

TOTAL YEARS OF EXPERIENCE (15YEARS)

CONSULTANT & TRAINER

- Quality Institution for Engineering & Management consultancy QI**
- Since FEB 2016**
 - Consultant and trainer.
 - Iso 9001: 2015
 - Iso 13485:2016
 - Iso 22000
 - Iso 14001
 - Iso 45001

Make consultation for several places:

- YOUSRY ELDAKHAKHNY MEDICAL LAB. *Iso 9001*
- EGYPTION/ BRITISH LAB. *Iso 9001*
- DR/MOHAMMED ZAKY LAB *Iso 9001*
- MD for medical supplies (MEDTRONIC) *Iso 13485*
- Techno pharma Egypt for pharmaceutical industry *Iso 9001, Iso14001, Iso18001.*
- Seif Pharma Company for pharmaceutical industry. *Iso 9001, Iso14001, Iso45001.*
- Mostafa kamel hospital for armed forces. *Iso 9001*
- GYCO electroplating processes. . *Iso 9001, Iso14001 ,Iso 45001.*
- KMA ship navigation
- ROYAL LOGYSTICS *Iso 9001, Iso14001 ,Iso 45001.*
- PAXERA for medical software systems *Iso 13485*
- LEMON SPACES *Iso 9001,*
- EGYPT AFRICA for aluminum cladding *Iso 9001, Iso14001 ,Iso 45001.*

MICROBIOLOGICAL SPECIALIST

- **Nile Company for Pharmaceuticals And Chemical Industries : Since APRIL 2008 till 2022**

Job Description:

- Applied practical applications of microbiology in testing pharmaceuticals to identify potential hazards such as toxins
- , contamination, foreign bodies.
- Performed testing on various products for quality and product substitution in a laboratory setting
- Detailed study of the fundamentals of good manufacturing practices(GMP) such as hygiene , pest control
- Employed techniques of analysis involving water analysis , antibiotic assay , sterility test , LAL test and environmental monitoring
- Knowledge of Hazard analysis critical control point(HACCP) perform microbiological testing (endotoxin, bioburden) for water
- Perform microbiological testing (endotoxin, sterility and bioburden) for raw materials, in-process materials, intermediates and final product
- Perform environmental monitoring of the clean rooms (under ISO and EU specifications)
- Perform line clear and line start verifications
- Perform microbial characterization (gram stain, catalase, oxidase, and coagulase tests)
- Perform other microbiological assays
- Maintain historical files on organisms found in classified areas; microbial identification and trending
- demonstrated proficiency in Aseptic Process Environmental Monitoring, Aseptic Testing, Microbial Monitoring, Gram Staining, Sub-culturing, Bacterial Endotoxin Testing, Bioburden Testing, TOC, Plating, Membrane Filtration, and other USP testing
- Coordinate with Manager and other team members in organizing workload as to ensure timely release of all testing
- Troubleshoot instrument problems and work with the lab supervisor/manager and equipment manufacturer's technical services to resolve issues
- Perform accurate and timely sterility testing per procedure and report results per cGMP/GLP Guidelines
- Perform other duties as assigned
- Schedule and perform QC activities in Blue Mountain RAM platform

- Perform in-house microbiological assays, water, and steam attribute testing and other sampling procedures

MEDICAL LABORATORY SPECIALIST

- ELTATBEQEEN HOSPITAL(EL GIZA EL DAWLY)**
- YOUSRY ELDAKHAKHNY LABORATORY**

JOB DESCRIPTION

APPLIED PRACTICAL APPLICATIONS OF MICROBIOLOGY ,VIROLOGY ,BIOCHEMISTRY AND HEMATOLOGY SUCH AS;

Abscesses and deep-seated wound infections Bacteriology
 Activated partial thromboplastin time Hematology
 Alkaline Phosphatase (ALP) Biochemistry
 Antibiotic Susceptibility Tests Bacteriology
 Antibody titre Hematology
 Anticoagulant Control - Heparin control; Oral Anticoagulant Control (INR) Haematology
 Anti-HCV antibody screen and confirmation Virology
 Anti-HIV 1 and 2 antibody and p24 antigen screen Virology
 Anti-neutrophil cytoplasmic antibody (ANCA) Immunology
 Antinuclear antibody (ANA), includes anti-centromere Immunology
 Antithrombin Haematology Bile Acids Biochemistry
 Bilirubin (conjugated/direct) Biochemistry
 Bilirubin (total) Biochemistry
 Bleeding Time Haematology
 Blood Counts - Full blood count and automated differential; Manual blood film; Reticulocyte count; Erythrocyte Sedimentation Rate (ESR); Screening test for glandular fever; CSF; Bone
 Blood cultures Bacteriology
 Blood group Hematology
 Blood Transfusion - Cross Matching; Blood Group; Antibody screen and save serum; Cord agglutinin titers (4°C); Hemolysis; Antibody titer Hematology
 Brucella Virology (referral)
 Calcium (blood and urine) Biochemistry
 Calcium ionized Biochemistry
 Chloride Biochemistry
 Cholesterol Biochemistry
 Cholinesterase Biochemistry
 Chromium Biochemistry
 Cobalt Biochemistry
 Coccids Virology (referral)
 Complement C3 Immunology
 Complement C4 Immunology
 Contact lens Bacteriology
 Copper (blood and urine) Biochemistry
 Drugs of abuse (urine Erythrocyte Sedimentation Rate (ESR) Hematology
 Ethanol (drinking alcohol) Biochemistry
 Eye and pus Bacteriology screen) Biochemistry

 Fibrinogen Haematology

Flow Cytometry Immunology
Follicle stimulating hormone (FSH) Biochemistry
Free fatty acids Biochemistry
Full blood count and automated differential Haematology G6PD Assay (if screen gives intermediate or reduced result) Haematology
Growth Hormone Biochemistry
Glucose Tolerance Test Biochemistry Haemophilus influenzae type b antibody Vaccine Evaluation Unit
Haptoglobin Estimation Haematology
HbS Screening Test - Urgent/pre-operative (Pts >1 yr Old) Haematology
HBV genotyping and resistance markers Molecular Microbiology
HCG blood (pregnancy and as tumour marker) Biochemistry
HCV genotyping Molecular Microbiology
Helicobacter pylori Bacteriology
Helicobacter pylori in Gastric Biopsies Bacteriology
Heparin control Haematology
Hepatitis A virus (HAV) IgG Virology
Hepatitis A virus (HAV) IgM Virology
Hepatitis B virus (HBV) e antigen (HBeAg) and e antibody (Anti-HBe) Virology
Hepatitis B (HBV) confirmation Virology
Hepatitis B (HBV) core antibodies Virology
Hepatitis B (HBV) core antibody - Dried Blood Spot Virology
Hepatitis B (HBV) core IgM (anti-HBc IgM) Virology
Hepatitis B e antibody Virology
Hepatitis B e antigen Virology
Hepatitis B genotypic antiviral resistance and genotyping Molecular Microbiology
Hepatitis B (HBV) surface antibody (Anti-HBs) Virology
Hepatitis B (HBV) surface antigen (HBsAg) Virology
Hepatitis B (HBV) surface antigen (HBsAg) - Dried Blood Spot Virology
INVERSION 16 Haematology
Iron Biochemistry

Liver Function Tests Biochemistry
Liver Kidney Microsomal (LKM) Immunology
Nose swab Bacteriology
Routine haemoglobinopathy screening Haematology
Rubella IgG Virology
Rubella IgM Virology
Triglycerides Biochemistry
Triiodothyronine (free T3) Biochemistry
TSH receptor antibodies Immunology
Urea (blood and urine) Biochemistry
Urine - cell count Bacteriology
Zinc Biochemistry
